Press Release

Woodlands at Davidson Announces New Builders

The Woodlands at Davidson, a unique wildlife neighborhood in Davidson, NC is pleased to announce the addition of three new featured builders: Jay Johnstone and John Shryock of Artisan Custom Homes, Gene and Lynn Keener with Fine Homes, Inc. and Karl and Shannon Plattner with Plattner-Bailey Custom Homes. These builders join Tom Ryan with Landmarq Custom Homes, as the featured builders for this Davidson neighborhood. These builders all come with many years experience in building custom homes in Davidson and are known for their quality building and client loyalty.

The Woodlands at Davidson is intended to serve as a model of wildlife and environmental sustainability through the preservation of contiguous natural areas, protection of creeks and wetlands, and enhancement of wildlife habitat throughout the development. This priority of sustainability is extended to the homes through a strong emphasis on energy-efficient home design and aesthetic design that captures the beautiful natural elements of the neighborhood.

Located approximately three miles from Downtown Davidson, The Woodlands is a 56 home neighborhood that mingles a variety of housing types and lot sizes within an exciting tapestry woven with the natural environment. The neighborhood has been designed around over 24 acres of carefully conserved open space including a neighborhood green, a community orchard, and conserved hardwood forest areas. The home sites have been carefully selected to ensure that no resident is more than a two minute walk from a greenway or park along a highly connected pedestrian path system.

For more information about the neighborhood, go to www.TheWoodlandsAtDavidson.com.
